

WE PROTECT INNOVATION

Quality Policy

Who we are

TEKO founded in 1957, born in the electronic field, designs, manufactures and sell enclosures to dress and protect electronic devices. Thanks to our experience, we develop solutions that combine design and functionality, typical of Made in Italy.

We have a Team dedicated to taking care of all the life cycle of a product, from the idea to the after-sales service.

We are rooted in our Country, but active on foreign markets thanks to an international network of historical partners.

What we do

- We provide customizable standard products and custom solutions, using different materials and processes in order to meet the needs of multiple application fields.
- We enhance customer's ideas by supporting him in product development and actively contributing to its final design.
- We innovate the range of enclosures following market developments and trends.

Who we turn to

From the Design Studio to the OeM, where there is electronics there is a need of an enclosure.

What we aim for

- Offer solutions and not only sell products.
- Being a competent and reliable partner in your innovation processes.
- Provide a complete system ready for integration with electronics.

How we plan to get it

Reliability
Elasticity
Creativity
Affordability
Precision
